

CyberLink PowerDVD Ultra 9 Build 1530 Retail

PowerDVD is the latest evolution of the world acclaimed DVD software program that offers maximum video and audio playback entertainment on the PC. It comes complete with numerous customizable video/audio controls that can deliver the highest quality viewing and listening experience. PowerDVD incorporates support for high-definition audio and video, true 8-channel home theater audio playback, virtual surround sound, as well as complete controls and extra features for DVD enthusiasts.

PowerDVD 9 playback software offers the best HD, Blu-ray and DVD software playback around! Use TrueTheater™ to increase DVD quality for viewing on an HD display. This playback software also allows you to navigate easily with Fancy View, flipping through your movie titles and previewing content. There are also plenty of other useful interactive features for die-hard movie fans and the casual viewer alike. PowerDVD 9 playback software is truly the way HD, Blu-ray and DVD was meant to be viewed!

The Best Blu-ray/DVD Player Software Today

World-renowned PowerDVD 9 delivers outstanding Blu-ray and DVD movie playback quality on your PC.
